

[Windows 7 Activation Uninstall Other Cracks](#)

### Choose how Windows can install updates

When your computer is online, Windows can automatically check for important updates and install them using these settings. When new updates are available, you can also install them before shutting down the computer.

[How does automatic updating help me?](#)

#### Important updates

Never check for updates (not recommended)

Install new updates:  at

#### Recommended updates

Give me recommended updates the same way I receive important updates

#### Who can install updates

Allow all users to install updates on this computer

Note: Windows Update might update itself automatically first when checking for other updates. Read our [privacy statement online](#).
